

# Electronically File Court Documents Anytime, Anywhere with eFileMA

The e-filing portal, eFileMA, allows users to open cases and file documents from a single website to many courts in Massachusetts from anywhere — 24 hours a day, seven days a week. Courts in multiple Massachusetts counties are collaborating to simplify e-filing in the state, and eFileMA provides one location for attorneys and courts to search for existing cases across counties. The system streamlines filing processes and eliminates the need to file paper documents at the clerk's counter.

## **eFileMA benefits include:**

- Enhanced and automated reporting and financial reconciliation
- Reduced average filing times
- Eliminated routine trips to the courthouse
- Increased access to file stamped copies of your court documents
